

# SMART MARINER Weatherproof Fixture

## Product Features

The Smart Mariner weather proof fixture is of best industrial grade quality to stand in challenging working conditions. On top of IP 65 protection, Smart Mariner offers 'breathe valve' to maintain the balance of pressure and prevent from accumulation of moisture inside. It also expands the capability to work with sensors to achieve better energy saving cost.

# Specification

## LED & Optical

- **Output Range:** 2500-9000lm
- **Photometric Options:** 125°C
- **System Efficacy:** Up to 129LPW
- **CCT:** 4000K-6500K@70CRI

## Electrical

- **Input voltage:** 220-240V<sub>AC</sub>
- **Input Frequency:** 50/60Hz
- **Power Factor:** > 90%
- **THD:** < 20%.

## Ratings

- **IP Rated:** IP65
- **IK Rated:** IK08

## Construction & Finishing

- Impact resistant body and polycarbonate cover
- UV Stabilized, flame retardant PC with good color stability under heat exposure.
- Breather valve to maintain good waterproofness & over pressurization

## Applications

- Underground Parking Bay
- Industrial Warehouse
- Pathway
- Corridor walkway

## Controls

- **Dimming:** 0-10V
- **Sensors:** Motion Sensor
- **Battery Pack:** 3hrs back up duration
- **Warranty:** 3 Year
